DMX profile index

PROFILE	NAME	CHANNELS
CHANNEL MODES		
3	3-channel mode	3 ch
4	4-channel mode	4 ch
6	6-channel mode	6 ch
8	8-channel mode	8 ch
11	11-channel mode	11 ch

Source: TourPro SlimPar 7 Jnr Cut Sheet, DMX mode: 3/4/6/8/11-channel modes. Channel counts are the DMX block each profile occupies.

※ The only document published for this fixture is the Showtools cut sheet, which lists the channel counts and prints no channel table: 'DMX mode: 3/4/6/8/11-channel modes'. This chart lists the channel count of each mode; read the function of each channel off the fixture's own display before patching.

※ The cut sheet is headed TourPro SlimPar 7 Jnr and specifies a RGBWAUV colour spectrum, 7 LEDs at 12W, 15 degree dispersion, 4 inbuilt dimming curves and 11 colour temperature whites.
